Chemistubes flask ø55×100

by Teresa Sapey

CHEMISTUBES, is based on "decontextualization". A new object is produced through increasing the size (intervention in scale), using different materials to the original one (in this case, the ecological material of resin of polyethylene using the technique of rotational moulding), and changing the original use for which an object was first designed. What a laboratory container was before is now a designer planter decorative IN&OUT item.

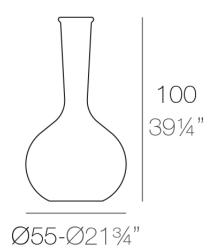

Info

Description

Made of polyethylene resin by rotational moulding.100% Recyclable. Item suitable for indoor and outdoor use. Available in different finishes.

Weight: 6 Kg

FLASK Maceta 100 C = 5 L

FLASK Planter 100 $C = 1\frac{1}{2}$ gal
