

Pixel back cushion

by Ramón Esteve

Designed by Ramón Esteve for Vondom, Pixel is a minimalist furniture collection inspired by the **small color elements that compose an image**. Esteve's vision aims to create a deep connection between the furniture and its potential configurations, echoing the versatility of pixels in digital imagery.

Esteve's design approach embodies minimalism, where form and function are distilled into sleek, geometric designs that exude harmony and balance. Each piece is meticulously crafted to embody simplicity and elegance, integrating seamlessly into any environment, whether a modern urban apartment or a serene outdoor retreat.

What sets the Pixel collection apart is its adaptability. Designed to be modular, it offers users the freedom to customize and reorganize their furniture arrangements to suit changing needs and preferences. This versatility, combined with the collection's aesthetic appeal, celebrates creativity and innovation in furniture design.
